ATMC
New Zealand

Welcome

“Welcome to ATMC NZ, an ideal education provider for students seeking an industry-relevant curriculum. ATMC offers a variety of programs delivered in a personalised learning environment with a student-focussed approach. On successful completion of studies with ATMC NZ graduates will be set on the path to an exciting and worthwhile career”.

Why choose to study at ATMC NZ ?

ATMC NZ is seeking to build upon the legacy created by EDENZ Colleges; which has been operating in Auckland for many years. ATMC NZ has purchased the assets of EDENZ Colleges 2016 Limited

ATMC NZ Limited is owned by ATMC in Australia, who have over five very strong and growing international student campuses in both Sydney and Melbourne. With this history of success in international education delivery, ATMC NZ is committed to building an academically sound, strongly lead, exciting student experience that will equip you with skills and knowledge to help you realise your dreams.

We are a vibrant, forward-looking education provider, respected for the quality of our programmes. Study at ATMC NZ and you're likely to meet students from all over the world.

Are you looking for specific training in Digital Media, Film or teaching English? Perhaps your focus is in the innovative business world, health, technology, or your English language skills. Our team of over 100 professional teachers and support staff have years of expertise, national and international experience and many industry connections.

Campus
Auckland CBD

The ATMC NZ Colleges is located in the Central Business District (CBD) amongst the universities. Our students have access to a spacious on-site café, a suite of computer labs and our well resourced library, including more than 6,500 books and periodicals.

Important Information

Living Costs

In addition to your tuition fees you will need to pay for text books, and your personal expenses. If you enter New Zealand on a student visa then Immigration NZ requires you to have NZ\$15,000 available in addition to your course fees for each year you'll be studying in New Zealand, plus an additional NZ\$2,000 to cover a return ticket home.

Living costs can vary depending on your accommodation choice, but you can search for further information on the Immigration NZ website: www.immigration.govt.nz

International Student Support

Our Student Service team are here to help you succeed academically and personally throughout your studies. We can help with any questions you may have including: visa renewals, insurance, accommodation, transport to campus and general campus information. We are here to support your wellbeing and can help you connect with the relevant support services available to you.

We run an Orientation programme to help you settle in and we also run a number of events and activities throughout the semester to help you develop good study practices and examination skills.

ATMC NZ is committed to ensuring an active, enriching campus life and has excellent facilities on each of our campuses as well as information on associations and clubs to meet the needs of the student community.

The Education (Pastoral Care for International Students) Code of Practice 2016

The Ministry of Education has established a comprehensive Code of Practice for the Pastoral Care of International Students. ATMC NZ is bound by this Code which offers protection for all international students.

Immigration

Full details of immigration requirements, advice on rights to employment in New Zealand while studying, and reporting requirements are available from Immigration New Zealand.

Study and Work in New Zealand

New Zealand Immigration provides options for students to work while studying. Depending on your area of study, you may also have the opportunity to stay and work in New Zealand for up to four years, and possibly even gain residence. nzstudywork.immigration.govt.nz

Eligibility for Health Services Medical and Travel Insurance

The New Zealand Government's Code of Practice for Pastoral Care of International Students requires all international students to have compliant medical and travel insurance during their period of study. ATMC NZ have a responsibility under the Code to ensure that all enrolled international students have sufficient medical and travel insurance. ATMC NZ will provide compliant health coverage to you that meets the requirements of the Code at an additional charge. More details are available in the student handbook.

How to Apply

STEP 01

Choose your programme and check you meet the academic and English language entry requirements for admission into New Zealand to study with ATMC.

STEP 02

Apply with the registered list of agents for ATMC NZ in your country.

STEP 03

Once your application is complete, and we have received all necessary documentation, it will be assessed.

STEP 04

If successful and you meet all the criteria, ATMC NZ will issue you an offer of place. Accept your offer of place by following the instructions in your offer letter and obtain insurance.

STEP 05

Obtain Compliant Health and Travel Insurance from ATMC NZ, or provide your alternate policy to ensure it is compliant to the Code. Pay your tuition fees - we will then issue a receipt of payment you can use for visa purposes.

STEP 06

Apply for your visa with NZ immigration at nzready.immigration.govt.nz

STEP 07

Organise your accommodation and air fares!

STEP 08

We will remain in communication with you throughout this process, but if you have any queries along the way please don't hesitate to contact ATMC NZ.

Auckland the City of Sails

Auckland, New Zealand's biggest and fastest growing city with a population of 1.5 million people, is the financial and economic centre of the country. New Zealanders are friendly and welcoming people. Auckland is New Zealand's most popular destination for international students.

Situated between two natural harbours, Auckland has all the facilities and attractions that students enjoy; world-class entertainment, shopping, restaurants, bars, galleries and convenient transport systems. Within easy reach are beautiful beaches, regional parks, vineyards, unspoilt native bush and tranquil islands.

From stunning mountains and natural hot springs to flowing waterfalls and marine reserves, New Zealand has endless experiences for you to discover. It is a great place to relax and one of the safest places on the planet. Yet, if you love adventure then New Zealand has more extreme options, like bungee jumping, white water rafting or a jet boat ride!

Business

 GRACE HARDER

“I'm really looking forward to studying in NZ, I've heard about the great educational opportunities that I can get with ATMC NZ!”

For over a decade our business faculty has successfully educated and developed business leaders. Our Diploma and Bachelor qualifications offer a modern educational experience immersing students in the diverse and rewarding environment of business in New Zealand.

Our experienced academic staff introduce students to the latest theoretical knowledge supported by practical examples. Guest speakers bring New Zealand businesses into the lecture halls and directly to our students. This is an opportunity to start a career journey leading to success for life.

Courses

Diploma in Management (Healthcare) - Level 7

32
Weeks

This Diploma targets learners wishing to develop leadership and management skills supporting their existing healthcare knowledge and skills. Graduates will be equipped for effective management and leadership of healthcare units leading to increased productivity.

Diploma in Business - Level 7

32
Weeks

This Diploma provides career-minded students with a robust understanding of management theory and practice within commercial and non-commercial environments. Our graduates are prepared to start their own businesses, become entrepreneurs, leaders, and managers in New Zealand or anywhere else in the world.

Bachelor of Applied Management - Level 7

3
Years

Our unique Bachelor's Degree develops people-centered leaders and managers; while ensuring the organisation remains sustainable, financially viable and profitable. Our graduates are defined by their holistic understanding and decision-making in their approach to business, society and community.

“Entrepreneurial skills don't change lives, becoming a leader will.”

Join our graduates at Bupa, 2 Degrees, Geneva, Tiffany & Co. and IAG.

MARIA & JOSE

“The opportunity to further extend my career by studying at ATMC NZ is something I'm researching as I believe it will really expand my career path”

While doing the diploma, students will engage with, and learn from each other, industry practitioners as well as our staff who are excellent facilitators of learning. We encourage students to explore, share and learn together in a collaborative environment

We guide each student to achieve their best, helping them not only gain valuable knowledge and skills, but also develop their communication and other soft skills preparing them for employment as software developers, a profession that is in high demand throughout the world.

Courses

Diploma in Software Development - Level 7

32 Weeks

This Diploma provides career-minded students with practical hands-on software development in modern application programming, resulting in highly-tuned technical capabilities. To complete their course, students are encouraged to work on industry sponsored capstone projects to prepare for lucrative roles in industry.

Strands

Robotics and IoT

Students will learn Robotics and IoT concepts and technologies by building and programming robots and IoT (Internet of Things). They will work individually and in groups. They will explore new and emerging sensor technologies in a highly collaborative learning environment.

Mobile Application Development

Students will design, develop, document, demonstrate and present a mobile application solution to a business problem. Currently, we use Java, with Android Studio as the IDE. However, students with prior experience may choose other tools, IDEs and Frameworks. Students will also get some exposure to XML and JSON.

Desktop Application Development

Students will design, develop, document, present and demonstrate a technical desktop application solution to a business problem, using the Test-Driven Development (Agile) methodology. Java is the programming language that is used currently, along with Eclipse as the IDE.

Cloud and Web Application Development

Students will design, develop, document, present and demonstrate a technical web application solution to a business problem. Technologies used include, HTML5, MySQL, CSS3, PHP and JavaScript. Students with prior experience also explore and use other tools and technologies.

 The future is outpacing us. We're training you to catch it. 

Join our graduates at Co-op Money, Datacom, Auckland Uni, Redfox & numerous other growing companies.

Career Services & Graduate Destinations

At ATMC NZ, we have trained, experienced and caring career support staff to assist students with their career journey. There are a wide range of career services available to students from the time they arrive right through to beyond graduation.

We keep an updated Career Notice Board with job postings direct from employers and up-to-date vacancies from various websites. Career Services are also able to provide exclusive part-time and full-time job leads directly to students who have registered as job seekers.

Students will participate in interactive career training during their studies on CV writing, cover letter writing, job search, interviews and online branding. During these classes, students will have the opportunity to prepare their CV and a cover letter as well as practise their interview skills.

Career Services work across all of the faculties to create industry connections, job leads, industry visits as well as finding guest speakers and advisory board members. Students, especially in technology, often get relevant employment and internships through staff links to industry.

Students are invited to additional fairs and career events throughout the year that can assist them to build their career. We are here to assist students and graduates to be successful with their short term and long term career goals, whatever they may be.

“Come to ATMC NZ to study and enjoy an exciting student life!”

Employment Pathways

Business degree graduates will have potential to find employment in many different fields, however as an example a business administrator, business and finance support, operations manager, business development manager, office manager or other general management positions.

The human-focused nature of the programmes means that the graduates are prepared for industries that create solutions with people, for people and by people. Industry feedback has suggested that more people-focused skills will be a valuable asset for future graduates:

- ◉ Managers who can lead and manage people
- ◉ Managers who can draw on a wide variety of knowledge to support their work
- ◉ Managers with intercultural competencies
- ◉ Managers who can plan and manage projects from initial idea through to delivery
- ◉ Managers who can consider sustainable practices
- ◉ Managers capable of strategic thinking
- ◉ Managers with the capability to start a new enterprise
- ◉ Managers who can innovate and have entrepreneurial capacity

Student Services

Services we recognise that studying abroad can mean many changes in your life and have a considerable impact on your schedules. Things that could impact you are language and cultural differences, expectations, academic workload, the cost of living and not having the same support networks that you previously had.

As you are learning and developing, we want to ensure that you feel well supported and always know where to turn for help! Whether you need support with a disability, counselling, academic, accommodation or personal concerns, we are here to help.

Our Student Care Manager is available for one-on-one counselling with students. These counselling conversations are confidential and often involve useful work around helping students clarify their values, open up scope for choice, and take meaningful action in their lives.

"The first language person helped me to feel support and care, that is such important things when you're alone abroad."

Our friendly staff speak over 20 languages. You will be assigned a support person to communicate with in your first language. They will help you settle in, connect you with fellow students and introduce you to the fun Kiwi way of life.

You'll have the opportunity to make friends with other students across all the academies at our weekly Friday social events. Whether it is going to see a rugby game, a picnic on the beach or a photo rally around the city, we have exciting events happening regularly.

Our Research

ATMC NZ is always looking for ways to nurture and develop an enriching, connected and ethical research environment. Many of our faculty are involved in research and are experts in cutting-edge practices. It also means that we always equip our students with the latest knowledge and give them access to experts in their fields.

We view research as being concerned primarily with the generation of new knowledge and understanding. Research, as defined by the Tertiary Education Commission is "an original investigation undertaken to gain knowledge and understanding". Such new knowledge and understanding, when applied ethically, is instrumental in enhancing our students' academic experience as well as the well-being of society.

Our research ethics derive from the values and moral philosophies of our college, staff and students. All staff and students adhere to and refine their own personal ethical convictions while simultaneously embracing the values of our organisation: wisdom, passion, connectedness and heart.

The ATMC NZ Research Centre allows Staff and students to meet, brainstorm and come up with project and collaboration ideas. Our focus is on bringing together researchers from different disciplines to work on research and development projects in ways which are consistent with our values and create societal impact.

We encourage highly qualified,
and research active teaching staff
